Dear Hiring Manager,

I am excited to apply for the Web Developer position at Triumph Solutions. With 1+ year of professional experience as a Full Stack Developer, I have hands-on experience building, maintaining, and deploying real-world websites and web applications using HTML, CSS, JavaScript, PHP, React.js, Node.js, and databases.

In my current role, I have worked on e-commerce platforms, business websites, and educational applications, gaining practical experience in responsive design, MVC architecture, REST API integration, database management, debugging, and website deployment. I enjoy solving technical problems, writing maintainable code, and creating user-friendly web experiences.

I am particularly interested in joining Triumph Solutions because of its focus on quality, innovation, and developing solutions for international clients. I am eager to contribute my existing skills, learn new technologies, and grow as a developer while supporting the team's goals.
Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to Triumph Solutions.

Best regards,
Ezhilarasu K
